DZOFILM

# Delighted look in Solid build --a professional cine lens

DZOFILM is devoted to exploring the art of color and design of optics. Both mechanics and optics are designed to compact and versatile, allowing users to enjoy the smooth and precise operation with Pictor Zoom.

# Parfocal design - Always put you at ease Zero-Shifting focus stay all the way along

No matter from close-up to wide shot,  
under Parfocal design, zero-shifting focus always  
put you at ease.

# Breathing? Negligible!

Thanks to the floating structure, the breathing of Pictor zoom lens can be negligible during focusing.

DZOFILM

# Versatile in Ultra compact

Be a Better Run-and-Gun Filmmaker

No fear of any complicated scenes or quick shooting, time saving without frequent lens changing, pictor zoom, in no way miss an inspiring moment.

# Gentle Sharpness & Vivid Look

Gentle sharpness and contrast,  
From feature film, commercial, to documentary,  
Pictor zoom, captures crisp details while  
expressing organic look and cinematic texture.

# [ Spot effect ] increases sense of separation.

Neutral color rendition & Complexion friendly

Soft Bokeh generated by 16 blades T2.8 iris.

natural transition from focus to defocus

convey the ambience and highlight the

subject in the meantime

Seek for more possibility--

interchangeable mount System

compatible with PL, E, EF and LPL mounts, providing more possibility of shooting.

# Consistent Design & Higher Efficiency

Highly consistent in color and mechanical control, Pictor zoom, satisfies most of the shooting demands.
